

ABOUT COLLEGE:

Pallavi Engineering College has a sprawling campus and is well connected by road and easily accessible by both college and RTC buses. It has the unique advantage of being located in the heart of the city. It is situated 5 km from Nagole cross roads and 3 km from Hayathnagar. It is free from pollution and the hustle and bustle of the city. The experience at NITS is unique; studying here opens a door to a world of opportunities. The college has well-designed, adequately furnished, ventilated and spacious classrooms. All the laboratories of Engineering and Sciences are well equipped with latest and sophisticated gadgets.

Vision:

Our vision is to be one of the nations premier educational institution by achieving the highest order of excellence in teaching and research.

Mission:

To serve the state, the nation and the world by producing talented, broadly educated engineers.

To impart quality technical education for students coming from both rural and urban areas.

To strive for student's achievements and success, preparing them for life and leadership.

To enable the students develop their personality to meet the challenges in global environment.

It has the unique advantage of being located in the heart of the city. It is situated 5 km from Nagole cross roads and 3 km from Hayathnagar. It is free from pollution and the hustle and bustle of the city. The experience at NITS is unique; studying here opens a door to a world of opportunities. The college has well-designed, adequately furnished, ventilated and spacious classrooms. All the laboratories of Engineering and Sciences are well equipped with latest and sophisticated gadgets.

Vision:

Our vision is to be one of the nations premier educational institution by achieving the highest order of excellence in teaching and research.

Mission:

To serve the state, the nation and the world by producing talented, broadly educated engineers.

To impart quality technical education for students coming from both rural and urban areas.

To strive for student's achievements and success, preparing them for life and leadership.

To enable the students develop their personality to meet the challenges in global environment.

PALLAVI ENGINEERING COLLEGE COLLABORATION WITH Paramount Auto Bay Services

(Approved by AICTE, New Delhi, Affiliated to JNTUH, Hyderabad)
Nagole, R.R. Dist 501505, Telangana state, India

ABOUT COLLEGE:

Nagole Institute of Technology & Science has a sprawling campus and is well connected by road and easily accessible by both college and RTC buses. It has the unique advantage of being located in the heart of the city. It is situated 5 km from Nagole cross roads and 3 km from Hayathnagar. It is free from pollution and the hustle and bustle of the city. The experience at NITS is unique; studying here opens a door to a world of opportunities. The college has well-designed, adequately furnished, ventilated and spacious classrooms. All the laboratories of Engineering and Sciences are well equipped with latest and sophisticated gadgets.

Vision:

Our vision is to be one of the nations premier educational institution by achieving the highest order of excellence in teaching and research.

Mission:

To serve the state, the nation and the world by producing talented, broadly educated engineers.

To impart quality technical education for students coming from both rural and urban areas.

To strive for student's achievements and success, preparing them for life and leadership.

Description	<p>The speaker for guest lecture has been invited to the session on behalf of Pallavi Engineering college. The Coordinator has given a brief introduction about the speaker achievements and experience and principal welcomed him for the session on behalf the college. The speaker took over the session and delivered a lecture on Seminar on Effect of skill acquisition on entrepreneurship development. It is one of the results reveals that self-motivation moderated between skill acquisition and enterprise creation among the youths. The study recommends that more counselling from parents, universities, governments and other stakeholders be given to youths to engender greater interest in creation. Finally the coordinator acknowledged and the session concluded on a positive note.</p>

Description	<p>The speaker for guest lecture has been invited to the session on behalf of Pallavi Engineering college. The Coordinator has given a brief introduction about the speaker achievements and experience and principal welcomed him for the session on behalf the college.</p> <p>The speaker took over the session and delivered a lecture on EMERGING TECHNOLOGIES. The course will provide a forum for faculty members to get exposed to the state of the art of current trends of Emerging Technologies. The course will also help to identify future research needs in the interdisciplinary emerging field. Learning and teaching are undergoing drastic changes thanks to technology advances in the education field. This is especially true when talking about computer science. These advances are favoring the emergence of new styles of learning and teaching. This workshop describes such advances and their impact on education, particularly computer science, and it also foretells how computer science education will evolve.</p>

Description	<p>The speaker for guest lecture has been invited to the session on behalf of Pallavi Engineering college. The Coordinator has given a brief introduction about the speaker achievements and experience and principal welcomed him for the session on behalf the college. The speaker took over the session and delivered a lecture on Fundamentals of Research Methodology.</p> <p>R&D Cell has conducted a seminar for the students on 16-07-2022 at 02:00 PM. The Speaker started the programme for the students by differentiating Fundamental and Applied Research and told that the purpose as to expand knowledge of processes of business and management Results in universal principles relating to the process and its relationship to outcomes Findings of significance and value to society in general. Fundamental research (or academic research) is experimental or theoretical works mainly performed to obtain new knowledge on the basics of observable phenomena or facts, without prior consideration that it will result in any practical application or use. The speaker inspired the students to upgrade their skills. He focused more on real time problems and how to tackle them. The programme was energetic and informative session. He concluded the programme by citing the uses to the students as Research Methodology is the specific procedures or techniques used to identify, select, process, and analyze information about a topic. In a research paper, the methodology section allows the reader to critically evaluate a study's overall validity and reliability. The Coordinator acknowledged the dignitaries and the session concluded on a positive note Finally The Coordinator acknowledged and the session concluded on a</p>

The Coordinator has given a brief introduction about the speaker achievements and experience and principal welcomed him for the session on behalf the college. The speaker took over the session and delivered a lecture on Seminar on Research Methodology on e-SIM in the IoT series.</p> <p>R&D Cell has organized a seminar on "Seminar on Research Methodology on e-SIM in the IoT series " on 11-11-2021. Today's mobile phones are more powerful than ever. Casually lying on your table is a device with 100,000+ times the processing power of Apollo 11's computer, the machine that landed man on the moon. In addition to all that superpower, your phone may also house a tiny but mighty e-SIM card. More versatile than a nano-SIM, it's the latest word in mobile tech you'll be hearing a lot about in the coming years. Despite their growing impact on mobile technology since 2017, e-SIM cards are still easy to miss with all those other cool phone features vying for your attention. Already adopted on new Apple, Google, Samsung, and</p>

Motorola phones, tablets, and smart watch models, electronic SIM cards (or eSIMs) boast special convenience for frequent travellers and busy entrepreneurs. They are also the first steps in the transition to an e-SIM future and further facilitation of the Internet of Things (IoT). e-SIM stands for 'Embedded Subscriber Identity Module card'. It is the electronic equivalent of the regular SIM card in use since the 1990s. In contrast to the physical SIM which you can replace at will, an eSIM is embedded into your phone and cannot be removed. It can only be reprogrammed to adapt to the services of different providers. Just like a regular SIM, an e-SIM must be activated by the service provider in order to work for making and receiving calls, texts, connecting to the network, etc. e-SIM cards are easy to overlook since they're not physical pieces of plastic that you can add or remove from your phone. To add to the confusion, a phone with an e-SIM still qualifies as a single-SIM phone, since there's only one 'physical' SIM card. Though e-SIMs are still new, they're already viewed as the future of mobile tech. Many phone users appreciate the chance to digitally switch wireless providers based on preference and location while tech companies are talking about removing the old SIM card slot for good, extending battery life, and making devices less prone to damage. The Coordinator acknowledged the speaker and the session concluded with vote of thanks.

Description	<p>The speaker for guest lecture has been invited to the session on behalf of Pallavi Engineering college. The coordinator has given a brief introduction about the speaker achievements and experience and principal welcomed him for the session on behalf the college. The speaker took over the session and delivered a lecture on Seminar on Latest technology in Fiber "Next Generation Fiber "</p> <p>R&D Cell has conducted a seminar for the students on 13-07-2021 at 11:00 to 1:30 PM. The Speaker started the programme for the Seminar on Latest technology in Fiber "Next Generation Fiber ". industry and lobbying groups representing logging, pulping, and paper worldwide are highly effective and powerful. They have acquired vast acreages of primary forest, lobbied heavily for laws that protect their rights to cut down trees in these areas, and lobbied aggressively against any legislation that holds them accountable to the environment. Most concerningly, they have effectively marketed a false message that "trees are a virtuous and perfect input into our single-use paper packaging." Their efforts have been so successful that entities from EU lawmakers to Trayak's LCA software have adopted</p>

Organizing dept.	R&D Cell
Description	<p>Pavalli Engineering College, conducted a program for the students on 26-04-2021 at 10.00 AM in the college Auditorium hall. The R&D Head welcomed the gathering. The Coordinator presented a bouquet to the Speaker and presents the profile of the speaker.</p> <p>The speaker took over the session and delivered a lecture on "Emerging trends in Digital Copyright law". He explained the benefits of the digital copy rights laws that They are relevant because it takes a lot of talent, energy and resources to come up with creative, new ideas or products, and it is only natural that creators benefit financially from their efforts. For example, a software company has to spend years and crores of rupees to come up with a commercially viable product. It stands to lose money if someone cheaply reproduces the product and sells it for a fraction of the price, in what is called 'piracy'. Pirated software not only brings losses to the developing company but it also acts as a disincentive to others who may come up with new innovative products</p>

Exchange students live with a host family or in a designated place such as a hostel, an apartment, or a student lodging. International learning and knowledge propels students towards acceptance and understanding of an analyse of different cultural and community perspectives. Language acquisition is achieved through practical immersion. Awareness and adoption of alternative, multi-faceted approaches to learning. To get started with an exchange program, you will need to contact a student exchange agency</p>

and look for the programs they offer. The exchange agency helps you in the steps to apply for an exchange program at a school or university and finds a host family for you in your host country. A summer exchange programme can give a whole new experience to students and help develop their overall personality rather than just focus on academics. Here are five very popular summer exchange programmes in India. It is an immersive, experiential programme that provides students with a holistic exposure to college life with a specific focus on liberal arts education and college residency. The Coordinator acknowledged the dignitaries and the session concluded on a positive note. Finally The Coordinator acknowledged and the session concluded on a positive note.

EVENT REPORT

Name of the Activity	Importance of Funding Project	
Type of Activity	Seminar	
Date and Time of Activity	10-03-2020	10:30 AM to 1:30 PM
Details of Participants	55	
Resource Person	Dr.Durga Prasad Reddy Professor-MBA, CMR Institute of Technology, Hyderabad.	
Coordinators	M Malleshham, Asst.Professor/ EEE	
Organizing dept.	R&D Cell	
Description	<p>The speaker for guest lecture has been warm welcomed to the session on behalf of Pallavi Engineering College by the Coordinator and he has given a brief introduction about the speaker achievements and experience and Principal too welcomed him for the session on behalf of the college. The speaker took over the session and delivered a lecture on "Importance of Funding Projects". He explained that the project should be practical, not too costly, and have the potential for being repeated in other situations. A project proposal emphasizes the impact the activity will have. Evaluation is more on the field, usually more important in project proposals. The title is important. It should reflect the focus of your project. The most important words should come first. Avoid words that add nothing to a reader's understanding such as Studies Investigations. Budgets are developed according to sponsors and university guidelines. This section is an overview of common features. Depending on complexity, the budget section may require not only a tabular budget with line items, but may also require a budget summary and explanation or (budget justification or budget notes). Finally, he said that getting the funding for any project will be an added advantage for the college, department and even for the faculties and students.</p>

EVENT REPORT

Name of the Activity	Writing a Research Article
Type of Activity	Seminar
Date and Time of Activity	12-04-2019 10:30 AM to 01:30 PM
Details of Participants	52
Resource Person	Dr. N. Sravanthi Professor, Maturi Venkata Subba Rao Engineering College Hyderabad.
Coordinators	M Priyamvadhya, Assistant Professor /Civil
Organizing dept.	R&D Cell
Description	<p>The speaker for guest lecture has been invited to the session on behalf of Pallavi Engineering college. The Coordinator has given a brief introduction about the speaker achievements and experience and principal welcomed him for the session on behalf the college. The speaker took over the session and delivered a lecture on Writing a Research Article. The Speaker has initiated the program for the students by telling the importance of writing a quality Research Paper. General structure for writing an academic journal article: The title of your article is one of the first indicators readers will get of your research and concepts, Keywords, Abstract, Acknowledgements, Introduction, Main Body, Conclusion, References and Citations. Steps to publish your research paper:</p> <p>Step 1: Choosing a journal. Step 2: Writing your paper. Step 3: Making your submission. COORDINATOR Step 4: Navigating the peer review process. Step 5: The production process. If your paper is accepted for publication, it will then head into production. Can anyone publish a research paper? In theory, yes. There are no requirements that an author needs to have an academic title or education. Neither does one have to be affiliated to a university or other form or research institute. Finally she spoke regarding publishing in Scopus? The vast majority of researchers still believe that getting their papers published in Scopus journals is easy and does not require much effort. Such people more often than not, learn the hard way that this is not so. The Coordinator acknowledged the speaker and the session concluded with vote of thanks.</p>

Organizing Dept./Support System	IPRCELL		
In collaboration with	Ms. Florance Pasula Expert from Outside SV Global Service OPC PVT LTD		
Description	<p>The IPR CELL Unit of Nagole Institute of Technology & Science had conducted a seminar on "How to File a Patent". The workshop began at 10:30 AM. Ms. Florance Pasula headed the seminar talked on the procedure of filing of patent and applying for patent to know where to apply. Patent rights are granted by national patent offices, and patent protection for an invention must be sought in each country individually. Indian law of patent was Enshrined in the patent Act, 1970. The Act seeks to provide for legal protection for invention. The rights granted under the Act, were operative whole of India and also she discussed on benefits of patents like shop re-invention of re-inventing the wheel, to know what has already patented, patent a collaboration/money/farm/name etc.. The workshop concluded at 4:00 pm.</p>

ACTIVITY REPORT

Name of the Activity	One day Workshop on Research Methodology in Scilab		
Type of Activity	Co-curricular		
Date and Time of Activity	04-05-2019		10am to 5:00 pm
Details of Participants	50		
Convener	Mr. D. Rupakumar		
Coordinator(s)	Mr. B. Naresh Assistant Professor Department of Cse		
Organizing Dept./Support System	IPR Cell		
In collaboration with	Prof. Kannan Moudgalya IIT Bombay NMEICT, MHRD.		
Description	Nagole Institute of Science and Technology organized one day Workshop on Research methodology in Scilab Conducted by IIT Bombay, Mumbai in association with NMEICT, MHRD on 4 th May 2019. The program was initiated by Prof. Deepak B. Phatak of IIT Bombay. The program was Mainly concentrated on reduction of paid software role in present education system. The resource person from IITB well explained about Scilab software features and how it is a substitution of MATLAB. He is also explained about Different other Equivalent open source softwares. The faculty from Various departments attended this workshop with lot of interest . In the session various programming Tools and concepts related to scilab was thought. The session also covered with many Real time examples. The Workshop was concluded with valedictory session.

Details of Participants	40		
Coordinator(s)	Prof. Kannan Madgulya, IIT, Bombay	V. PHANEENDRA KUMAR	
Organizing Dept./Support System	IIT BOMBAY		
In collaboration with	IIT,BOMBAY,NMEICT,MINISTRY OF CULTURE,GOVT.OF INDIA		
Description	<p>In association with IIT BOMBAY, NAGOLE INSTITUTE OF TECHNOLOGY AND SCIENCE organized a one day workshop on KOHA and Library Automation Conducted by IIT Bombay in Mumbai association with NMEICT, MHRD and Ministry of Culture, Govt. of India. Members participated from various engineering and PG colleges, Schools and Research Institutions from throughout India. The workshop was Conducted by IIT Bombay in The program was initiated by Prof. Kannan Moudgalya from IIT Bombay, the resource persons well explained about Koha and Library Automation This workshop conducted using Spoken Tutorial methodology. Participants learned 'Koha' by listening to Spoken Tutorials and practicing them on live 'Koha' software. Koha supports all library housekeeping activities such as Acquisition, Cataloguing, Circulation, Serial Control, Patron Management, and OPAC. It also supports Web 2.0 tools. Thus, Koha can be readily configured to the needs of each library and is updated with new features frequently. The session also covered with many Real time examples. The Workshop was concluded with</p>

Description	<p>Nagole Institute of Technology and Science organized a one day workshop on KOHA and Library Automation Conducted by IIT Bombay, Mumbai in association with NMEICT, MHRD and Ministry of Culture, Govt. of India. 10 members attended this workshop from surrounding engineering and PG colleges, Schools and Research Institutions.The workshop was Conducted by IIT Bombay in The program was initiated by Prof. KannanMoudgalya from IIT Bombay, the resource persons well explained about Koha and Library Automation This workshop conducted using Spoken Tutorial methodology. Participants learned 'Koha' by listening to Spoken Tutorials and practicing them on live 'Koha' software. Koha supports all library housekeeping activities such as Acquisition, Cataloguing, Circulation, Serial Control, Patron Management, and OPAC. It also supports Web 2.0 tools. Thus, Koha can be readily configured to the needs of each library and is updated with new features frequently. The session also covered with many Real time examples. The Workshop was concluded with valedictory session where the Coordinators</p>

ACTIVITY REPORT

Name of the Activity	Seminar on Research in Pedagogy for Online and Blended Teaching-Learning Process - Autumn 2018	
Type of Activity	Co-curricular	
Date and Time of Activity	30-10-2018 to 01-11-2018	10am to 5:00 pm
Details of Participants	81	
Converner	Rupakumar D.	
Coordinator(s)	V. Phaneendra Kumar	
Organizing Dept./Support System	IPR Cell	
In collaboration with	Prof. Sridhar Iyer IIT Bombay ESOS, NMEICT, MHRD.	
Description	<p>NAGOLE INSTITUTE OF TECHNOLOGY AND SCIENCE organized a Program called "Pedagogy for Online and Blended Teaching-Learning Process - Autumn 2018", Conducted by, IIT Bombay, Mumbai in association with ESOS, NMEICT, MHRD. Principal Prof. Dr. N. Satyanarayana had emphasized the importance of Online educational methodology, and flipped-classrooms with associated pedagogy of active learning, have quickly emerged as the mainstay of effective education in this century. However, most of our teachers lack skills and competencies for proper and effective use of ICT in education. It is thus an urgent national requirement that all our teachers, at least those teaching in our professional colleges, are empowered to use technology effectively, to enhance the quality of education. Around 21 faculty members from various engineering colleges had completed this Training Programme successfully. Dr. Srinivasa Reddy worked as remote centreco-ordinator, Mr. D. Rupa Kumar worked as workshop co-ordinator.</p>

NAGOLE INSTITUTE OF TECHNOLOGY & SCIENCE
(Approved by AICTE, New Delhi, Affiliated to JNTUH, Hyderabad)

The major topics covered are:

1. Information Capture, Storage, and Display

Subsystems of Computer Devices for Capture

- Keyboard, Monitor, Printer, Webcams, Mouse, Hard disks
- Tablets and Smart Phones Servers,
- Cloud, Storage Farms, CD/DVD, Pen Drive

Effective Storage and Display

- Directory Organization and File Handling
- Dealing with Multiple Information format
- Organizing and Searching

2. The World of Internet and Web

Essentials

- Basics of Connectivity, LANs and WANs, Wireless and Bluetooth
- Organization of Web, IP Address, Domain Names, DNS Servers
- Browsers and Plug-ins

Effective Exploration of Web

- Searching Techniques
- Best Practices for Exploration

3. Use of ICT for Resource Creation and Management

Digital Content Creation using common productivity tools

- Document Editors
- Presentation Software
- Spreadsheets

Audio-Video Resource Creation: Spoken Tutorial Methodology

- Content Management Systems
- Learning Management Systems

4. Best Practices for Information Dissemination with ICT

Best Practices for Visual Communication

Best Practices for Online Collaboration

- ICT as a facilitator for academic ethics and Integrity
- Creative Commons Licensing
- Netiquettes for effective email communication

Seminar on Research in Pedagogy for Online and Blended Teaching-Reg

Prof. Kannan Madgulya, <kannanmadgulya89@gmail.com> Wed, Nov 24, 2017 at 7:14 AM
To: vpkumar73@gmail.com 10

Good morning sir

Prof. Sridhar Iyer
IIT Bombay
ESOS, NMEICT, MHRD.

Sub: Invitation to perform as a speaker for Seminar-Reg

Respected Sir

On behalf of the Nagole institute of technology& sciences and the Research Development Cell Organizing Committee, we are honored to invite you to deviledon
Research in Pedagogy for Online and Blended Teaching-The event is scheduled for [30-10-2018 from [10:30AM] in [College Campus].

Thank you in advance for your consideration, and we very much look forward to hearing from you.

Yours Sincerely

V.Phanendra Kumar

ACTIVITY REPORT

Name of the Activity	Workshop on "How to write research papers"		
Type of Activity	Co-curricular		
Date and Time of Activity	02/12/2017		10:30Pm to 4 pm
Details of Participants	74 faculty members		
Convener	Dr.K.Srinivasa Reddy		
Coordinator(s)	Mr.D.Rupakumar		
Organizing Dept./Support System	IPR CELL		
In collaboration with	Dr. S. Shalini Expert from outside Consultancy Eduontech		
Description	The IPR cell of Nagole Institute of Technology & Science had conducted Workshop on "How to write research papers" On 2 nd December 2017, beganat 10.30 AM in the presence of Dr.N.SatyanarayanaPrincipal. He addressed the faculty on importance of writing research paper and publication of research papers. The event was begun with the prayer to the almighty for his grace on the mankind and giving us the opportunity to conduct the event successfully. Dr.S.Shalini the resource person discussed about the writing of research paper without plagiarism and how to publish the research paper in reputed journal.
